

ATTENTION NNPSR CUSTOMERS

The Navajo Nation Program for Self Reliance (NNPSR) will be implementing a Payment Standard Amendment beginning with the July 2012 Monthly Benefit Payments.

As a result of the NNPSR's caseload and expenditures increasing for the past four (4) years, we are currently spending all of the funds we get before the end of the fiscal year. This Payment Standard Amendment is necessary so that we can provide assistance and services to all eligible families for the whole year.

The Payment Standard Amendment, which was approved by the Health, Education and Human Service Committee of the Navajo Nation Council on April 25, 2012, will reduce the Maximum Monthly Assistance Amount for all benefit group sizes by about 10%. For example: The Maximum Monthly Benefit Amount for a benefit group of four (4) will be reduced by \$65.00, from \$630.00 to \$ 565.00.

Pursuant to the Federal Tribal TANF Regulations (45CFR Part 286), Tribal TANF Programs are authorized to determine the types and amounts of assistance to be provided to eligible individuals and families.

If you have any questions or need additional information, please see a NNPSR staff member.
